Q&A
About the Florida Virtual Campus
Florida Virtual Campus

• Established in July 2012

• Created in statute by the Florida Legislature as a joint service of the Florida College System and the State University System

• Consolidated four existing statewide educational support organizations
Florida Virtual Campus

Four legacy, statewide educational support organizations prior to July 2012:

Florida Center for Library Automation
Provider of the automated library system for Florida’s public universities

College Center for Library Automation
Provider of the automated library system for Florida’s public colleges

Florida Distance Learning Consortium
Provider of Florida’s public post-secondary distance learning course catalog

Florida Center for Advising & Academic Support
Provider of the FACTS.org student advising system
Welcome! FACTS.org is Florida's official online student advising system! High school students, college students, parents, and even counselors can use this website to help plan and track educational progress in Florida. The Florida Department of Education has committed to providing informed choices about their education.

In July 2012, those four organizations and their respective programs and services were merged as:
• FLVC continues to evolve

• In 2015, a new statute established the Complete Florida Plus Program, managed by the University of West Florida and its Innovation Institute

• FLVC is now housed administratively under UWF as part of the Complete Florida Plus Program

• FLVC operates out of offices in Tallahassee and Gainesville.

Assessment for College and Career Entry

Students starting out in college or a career need to be well prepared. Your performance on various tests may help determine whether additional preparation may be necessary prior to graduation.

The ACT college-ready cut scores are: English 17, Math 19, and Reading 19.
The PERT college-ready cut scores are: Writing 103, Math 114, and Reading 106.
The SAT-I college-ready cut scores are: Verbal 440 and Math 440.

The table below displays your highest test scores. Dates are represented as MM/DD/YYYY.

<table>

Succeed in School

Developing Your Study Skills

1. Complete the assigned readings before class.
   A lot of times your teacher will build his/her lecture off the readings.
   By completing the reading before you go to class, you will pick up important key terms and concepts and have a better understanding of the topics when they are discussed in class.

2. Find out exactly what the test will cover.
   Ask your instructor questions like:
   - What material will the test cover?
   - Which topics are most important?
   - Will there be a test review?

3. Find a good place to study.
   Assign yourself a specific place to study and set a regular time to study each day.
   Make sure that your study place is comfortable and free from distractions.

4. Create your own study guides.
   After each class and after you read each chapter in your textbook, write down three to five questions (per chapter) that you think your teacher may ask on the exam.

By the time you roll around your exams, you will have a great deal on preparing for your test.

Helpful Study Tips

5. Go to class and take good notes.
   There is no substitute for being present in lecture and taking your own set of notes.
   Most exams will focus on lecture material.
   Therefore, a complete set of useful lecture notes is your most important study tool.

6. Create flash cards.
   Flash cards are easy to make. On one side write a key term or a question, and on the other side write the definition or the answer. Flash cards are a helpful tool that will allow you to quiz yourself as you prepare for your tests.

7. Study with other students.
   Find a study partner the first week of class and make it part of your weekly routine.

   Usually these resources have guides, review questions, flash cards and concept development tools. You take advantage of these tools to be successful study.

Note Taking Skills

Research shows that 99% of students take notes during lectures. But most students don’t do it correctly. Did you know...

- Students typically only record less than 40 percent of the lecture’s main ideas and content.
- Less than half of students review their notes after they have written them.
- Only a third of students edit their notes by adding, deleting, or organizing the material.
- Some students never look at the notes again after they leave class.

Learning Style

Note taking is an essential skill for you, but it’s only effective if used correctly. Try using the VARK Learning Style when taking notes.

Visual: Watch your teacher and the screen during overheads, power point or word presentations, or visual aids are being used.
Aural: Listen to the lecture. You can also record it and listen to it later for review.
Read/Write: Write down what you see and hear so that you can review it later.
Kinesthetic: Use multiple senses, such as listening, moving, writing, to interact with, and learn the material.

Managing Your Time

Time management alone is not enough! Part of managing your time is managing your attention!

TIPS

- When studying at home or school, try these tips to help you stay focused:
  > Turn off your phone before you start a study session.
  > Work offline whenever possible.
  > Allow for two minutes to organize your work area.
  > Have a plan for your study session.

Create a Daily To-Do List

Some people like to create a to-do list for the next day, taking some time at the end of each day to review briefly what they want to focus on for the next day. Others like to create their list in the morning at breakfast or when they first get to school or work.

- Create your list...the tasks you need to accomplish during the day, and map them out on a daily calendar.
- Prioritize your tasks...you may want to circle or place a number one by the most important priority to make sure it gets done first.

Complete Difficult Tasks First

You will feel a sense of accomplishment as you tackle your tough tasks first. Start out with your most difficult subjects, while you are fresh and alert.

Start projects when they are assigned. Do not procrastinate.

UNIVERSITY OF CENTRAL FLORIDA
BACHELOR OF ARTS - ANTHROPOLOGY

AT LEAST ONE REQUIREMENT HAS NOT BEEN SATISFIED

(RG) CURRENT TERM REGISTRATION. "RG" COURSES ARE INCLUDED
IN THE REQUIREMENT CALCULATIONS.

FILING YOUR INTENT TO GRADUATE (ITG) FORM AND YOUR
COLLEGE OF SCIENCES (COS) GRADUATION (GRAD) FORM:

If you are planning to complete all requirements and
graduate by the end of Spring 2015, your deadline for
filing your "Intent to Graduate" form is DECEMBER 5, 2014.
---for Summer 2015, the deadline is APRIL 24, 2015.
---for Fall 2015, the deadline is AUGUST 1, 2015.

BEFORE filing your ITG form:

1) ALL majors, minors, & certificates you expect to
   complete MUST BE DECLARED through my.ucf.edu.

2) enroll in your remaining classes. You must be
   enrolled at UCF and ONLY UCF in your final term.
   You may NOT be enrolled at another institution
   in your final term. If you do not need add'l
   courses, please e-mail cosgraduation@ucf.edu to
   request enrollment into a zero credit class.
   There is a fee with this class equivalent to one
   credit hour of tuition.
Florida makes it easy for students to take a course at another state college or university as a transient student.

Discover Online Degrees

DISCOVER DEGREE PROGRAMS
Selecting a degree that prepares you for life after graduation will make your future bright.

Types of Degrees
Students can earn different types of degrees based on their academic and career goals. The academic requirements of the program, average time to complete the degree and job opportunities for graduates are important factors to consider.

- An Associate of Arts prepares students to pursue a four-year baccalaureate degree. Most degrees require 60 credits and can be completed in two years. Students who earn an Associate of Arts at a state college are guaranteed admission to a state university, although not necessarily the university of their choice.
- An Associate of Science prepares students to directly enter the workforce. Most degrees require 60 credits and can be completed in two years. Students who earn an Associate of Science are not guaranteed admission to a state university.
- A Baccalaureate of Arts or Baccalaureate of Science, known commonly as a bachelor’s degree, is a four-year degree. These types of degrees are offered at all state universities and most state colleges.

Resources for Returning Students
A complete solution for adults with some college and no degree. We make the process simple and will help you build a pathway to a degree, figuring out how to accelerate your time to degree, fit it into your life and connect you to your 'what's next'. And, we will be there every step of the way. Our "coaches" work alongside as your personal advocate, counsel, and advisor.

**WHAT IS COMPLETE FLORIDA?**
Complete Florida is a statewide initiative sponsored by the Florida legislature to recruit and retain the state's 2.2 million adults with some college and no degree. With a partnership of eleven public and private higher education institutions near you in Florida, Complete Florida is your "one-stop" to encourage and support adult learners like you as they return to school with a focus on completion and connection to careers.
Education and Career Planning

Your future just got a whole lot brighter.
New Education and Career Planning Tool:

MyCareerShines
A service of FloridaShines
Education and Career Planning

- Free education and career planning for Floridians from kindergarten through life
- Replaces Florida Choices
- First major change in career and education planning for Florida in 25 years
- Powered by Kuder®, an internationally recognized provider of research-based assessments
Students who have a plan are more likely to achieve their education goals on time and on budget.

Understanding the educational requirements for a job is the first step to pursuing that career.

Exploring occupations can help individuals find a career path that works for them.
Users will be able to:

- Assess their interests, skills and work values
- Explore careers and occupations
- Identify educational requirements for jobs
- Find financial aid
- Develop a professional portfolio of personal resources, such as resumes, cover letters and references
Welcome to Kuder® Navigator™

Kuder® Navigator™ is an online education and career planning system that gives you the tools you need to build a foundation for lifelong career success. You will learn what your interests, skills and work values are and how to apply them to a career plan for your future.

Navigator also helps you with real-world skills such as how to write resumes and cover letters, how to research employers, and how to prepare for job interviews. You can even create an electronic profile that you may choose to share online with prospective colleges or employers.

Begin by Taking Assessments

Your assessment results will help us tailor your experience throughout the site.
